CONFORMX

VISCO-ELASTIC FOAM
MATTRESS RANGE

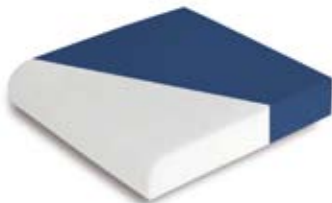

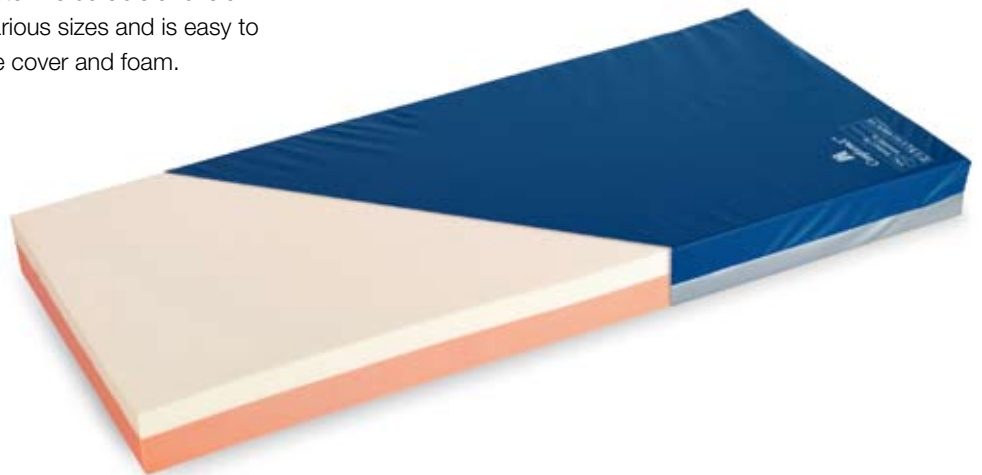

...with people in mind

CONFORMX SYSTEMS

The *ConformX*® system uses a layer of visco-elastic (memory) foam which provides maximum support with low interface pressures. By gently moulding to the patients body shape it offers superior performance due to the unique contoured construction. The *ConformX* system was specifically developed with patient comfort and pressure ulcer management in mind, and provides a 24 hour solution.

The range includes a pressure redistributing visco-elastic foam mattress replacement, overlay and seating system.

The system offers excellent clinical benefits for a wide range of environments, the *ConformX* system is durable and is a long lasting solution, available in various sizes and is easy to maintain due to the durability of the cover and foam.

24 Hour Care Package - Optional seat cushion

Overlay System - A mattress overlay is also available and is easy to install

Safe and Convenient for Patients and Carers

The *ConformX* mattress has been designed and tested by ArjoHuntleigh research and development facility, to ensure optimum and reliable performance. Manufactured using premium materials, designed to meet equipment decontamination guidelines.

The *ConformX* mattress replacement is available in multiple sizes and has been tested for X-Ray translucency and is suitable for CPR. In addition, the overlay includes corner securing straps for extra security.
